

Journey into the Mystery #10

Veils of Illusion

with Carole Burstein, PhD & Robert Litman, CBA

January 17-21, 2019
Maui, Hawaii

My life is a continuous inquiry into the illusions I call "reality" (1975)

This workshop invites us to discover the veils upon illusory veils, unconsciously woven into assumptive beliefs, that protect us from what are not ready to know. What seems in one moment to be an unquestionable life "given" can later reveal itself to be a perspective skewed to insure our survival. Each illusory veil can become a reflective portal that reveal hidden assumptions about life, and our place in it.

The construction of these "veils of illusion" is not pathology; it is the way our species survives. Only when we attain a certain critical mass of comfort, safety and resources in the world, can we begin to challenge, examine and explore the tenets that have unconsciously run our lives.
